Registration Deadline: March 15, 2011

Address

Network Aging Research
NAR Congress
z. Hd. Frau Heike Lovelock
Bergheimer Straße 20
D-69115 Heidelberg

Congress

Aging is inevitable, but improvements in sanitation, diet, healthcare and housing have resulted in a vast increase in life expectancy worldwide. Thus, aging is one of the major global challenges for the 21st century. The NAR recognizes that key challenges in aging – such as reducing frailty and morbidity, maintaining independence and wellbeing and providing cost effective care – cannot be solved in research silos but require a pluralistic approach.

This conference aims to discuss where we stand, what are the opportunities to add value through strong cross-sector approaches on aging and later life, and how the main health and wellbeing challenges are best tackled.

Organisation:

Network Aging Research (NAR)

Bergheimer Straße 20
D-69115 Heidelberg
